

Fatima Haydar

NETWORK AND COMMUNICATIONS ENGINEERING STUDENT

Profile

A motivated student with Hands-on Experience and knowledge in programming, networks, Communications and machine learning, Eager to learn from experienced team members and contribute to a dynamic team. Passionate about continuous learning and professional growth. Ready to leverage my skills to drive innovation and success.

Education

2023 – 2026

Lebanese University, Faculty Of Technology
BE in Computer Networks and Communications Engineering

Certifications

Machine Learning Specialization – Stanford University and DeepLearning.AI (3 courses)

- Supervised Machine Learning: Regression and Classification - July 2024
- Advanced Learning Algorithms – August 2024
- Unsupervised Learning, Recommenders, Reinforcement Learning – Sep 2024

The Python and Django Learning Guide - Udemy

Key skills

- Programming: C, C#, Python, C#.Net, SQL, HTML, CSS
- Network and Systems : Linux, Switching, Routing
- Scientific tools: Pytorch, Matlab
- Collaboration and Teamwork
- Language: Arabic, French, English
