Adobe Photoshop
Adobe Illustrator
Adobe After Effects
Adobe Premiere Pro

SKILLS

Logo & Branding Design
Typography and Layout
Visual Storytelling
Creative Thinking
Time Management

PROJECTS

Lebanese Barbecue Branding Project بيت مشاوي

Logo for a Lebanese barbecue brand, reflecting its traditional and warm identity. I also created a full branding package, including a business card, letterhead, envelope, and CD cover all using Adobi Illustrator, all following the same style to keep the brand consistent and professional.

Personal Branding Logo for a Public Figure

I designed a logo for the renowned Lebanese fashion designer Georges Hobeika using Adobe Illustrator. The design reflects the elegance and sophistication of his brand through a modern and stylish visual identity.

Editorial Magazine Cover Design

I created a magazine cover inspired by Vogue, featuring Zendaya as the figure. The design was made using Adobe Photoshop, focusing on a stylish and modern look that highlights elegance and creativity

Claymation Short Film (30 seconds) - ERROR357

This handmade claymation shows a person who works for two weeks on a website with little sleep. When he wakes up and opens his laptop, he sees a huge error message. After pressing a button, the laptop suddenly gulps him down in one quick motion. The film was edited using Adobe Premiere Pro for a smooth and clear result.

Advertising Video (20 seconds)

A 20-second advertising video showcasing a range of products, each presented in its own unique and creative way to highlight its special features. The visuals and elements were designed in Adobe Illustrator and animated in Adobe After Effects, combining clean design with dynamic motion to engage viewers.

"What If It Took You Home?" - Turtle Awareness Campaign

I created an awareness campaign called "What If It Took You Home?" focused on protecting turtles and marine life. The campaign includes posters, billboards, and promotional materials designed with Adobe Illustrator and Photoshop to encourage people to respect turtles and their natural habitats

Book Cover Redesign — The Midnight Library

Redesigned the book cover for The Midnight Library using Adobe Illustrator, creating a balanced design between typography and visuals to clearly represent the story and attract readers

Fictional Cartoon Character Design & Story

Created a fictional cartoon character called "Marfish" using Adobe Illustrator. Along with the character design, I developed a short story to bring the character to life and showcase its personality.

NOTE: A showcase of projects is available upon request
