EDUCATION

2019 - 2024

AMERICAN UNIVERSITY OF SCIENCE AND TECHNOLOGY

- Bachelor in Mechatronics Engineering

SKILLS

- Project Management
- Software Skills
- Teamwork
- Time Management
- Leadership
- Technical Skills

LANGUAGES

- English (Fluent)
- Arabic (Native)

PROFILE

Passionate and driven mechanical engineering graduate with hands-on experience in robotics and artificial intelligence, acquired through active participation in university technology expos. Skilled in foundational engineering principles with a strong interest in innovative tech applications. Known for a proactive approach to problem-solving and eager to apply engineering expertise in real-world challenges.

WORK EXPERIENCE

Linch Gaming   2024 - PRESENT
IT Specialist

- Server Setup and Maintenance: Installed, configured, and maintained servers to support seamless gaming experiences for users.
- Network Management: Managed network infrastructure, ensuring reliable connectivity and minimizing downtime.
- System Troubleshooting: Diagnosed and resolved technical issues related to computers, servers, and network devices promptly to maintain efficient lounge operations.
- Hardware and Software Upgrades: Regularly upgraded hardware components and managed software updates to keep systems optimized for performance.
- Data Backup and Security: Implemented data backup solutions and security protocols to safeguard user data and lounge operations.
- Technical Support: Provided hands-on support to staff and customers, addressing issues quickly to ensure a positive user experience.
- Performance Monitoring: Monitored system performance to preemptively identify potential issues, ensuring consistent operational efficiency.
