Heba Fakha

Second-Year Data Science Student |
Passionate About Data Visualization & Analysis

Beirut, Lebanon
(+961) 76 874 964
hebafakha2005@gmail.com

EDUCATION

Lebanese University, Beirut — *BSc in Data Science*

Expected Graduation: June 2026

Relevant courses:

Python, Data Analysis, Statistics(I/II/III), Database (I/II), Data Scraping, Metadata

PROJECTS

Coffee Shop Recommendation App (Streamlit)

Apr 2025 – May 2025 [GitHub Repository](#)

Scraped and analyzed review data of Beirut cafés using Python and Selenium.

Cleaned and visualized data to identify top-rated coffee spots based on user preferences.

Built an interactive Streamlit app to help users explore cafés by rating, location, and features.

Business Strategy Consulting — MIS Course Project

Apr 2025 – May 2025

Conducted business analysis for a local retail client in an academic consulting project, and delivered findings in a professional presentation using PowerPoint.

Travel Agency Website — Web Design Project

Oct 2024 – Dec 2024 [GitHub Repository](#)

Designed and developed a prototype website for a fictional travel agency as part of a course project.

Created wireframes, responsive layouts, and mock pages using HTML/CSS and basic JavaScript.

SKILLS

Languages: Python, SQL

Data Analysis: Pandas, NumPy

Visualization: Matplotlib, Seaborn, Streamlit

Scraping: BeautifulSoup, Requests, Selenium

Statistical Knowledge: Hypothesis testing, descriptive analysis

LANGUAGES

English (Fluent)

Arabic (Native)
