Profile

I am a creative and results-oriented Full Stack Web Developer with hands-on experience designing and building dynamic, user-focused web applications. With a keen eye for detail and a passion for intuitive design, I excel at transforming complex challenges into elegant, effective digital solutions. Committed to continuous learning, I consistently strive to deliver meaningful and impactful user experiences.

Experience

Junior Full Stack Web Developer

in2info || August 2023 - April 2025

in2info is a leading Lebanese internet agency offering a comprehensive suite of digital services since 1999.

- **User Experience Enhancement:** Demonstrated meticulous attention to detail by improving and updating user interfaces, leading to enhanced user satisfaction.
- **Project Development:** Successfully developed multiple projects utilizing Core PHP, React.js, and Laravel, delivering robust and scalable solutions.
- **Website Optimization and Maintenance:** Played a crucial role in optimizing and maintaining existing websites, ensuring seamless performance and superior user experience.
- **Project Coordination:** Efficiently coordinated projects from inception to completion, implementing client designs and overseeing the entire development life cycle.
- **Project Management:** Managed several projects simultaneously, ensuring timely delivery and maintaining high-quality standards.

Full Stack Web Developer

Codi Tech || November 2022 – June 2023

An intensive bootcamp designed to equip students with the latest programming technologies and job skills demanded by the market. During this program, I had the privilege to contribute to multiple projects within collaborative teams, honing both my teamwork aptitude and leadership capabilities.

- **Agile Methodology:** Consistently applied the Agile methodology, ensuring iterative progress and continuous improvement.
- **Team Collaboration:** Worked on multiple projects within teams, significantly enhancing collaboration skills and leadership abilities.
- **Client Communication:** Communicated directly with clients, gaining valuable real-world experience in understanding and meeting their needs.
- **Hands-On Experience:** Engaged in hands-on approach that strengthened technical competencies.
- **Project Management:** Honed Project management skills through practical application in a team-oriented environment.

Projects

- E-commerce website for COSMO (<https://cosmo.global>) || React.js, Tailwind CSS, Laravel, phpMyAdmin
An ecommerce website featuring online payment functionality, a dynamic currency converter based on the user's geographical location, and Arabic translation. Additionally, a comprehensive administrative dashboard is being developed to provide complete control, along with integrated email functionality to ensure efficient customer communication.
- Freelance Project for ABGISPC (<https://abgispc.com>) || React.js, Next.js, Typescript, Tailwind CSS
The company specializes in providing immersive 3D virtual reality tours, offering clients a way to showcase their locations with lifelike accuracy. The website is designed to feature individual iframes for each client, enabling visitors to explore various locations in a fully interactive and realistic environment.
- Freelance Project for Sarooj Oasis (<https://saroojoasis.com>) || React.js, Tailwind CSS, Laravel, phpMyAdmin
A freelance project was developed for "Sarooj Oasis," a real estate agency under construction in Oman, offering a variety of premium apartments, villas, and other properties. The website features an interactive map, allowing visitors to explore various locations in an engaging and realistic manner. Instagram integration was included to showcase properties dynamically, along with a contact form and a custom dashboard for full website management..
- Portfolio for Skintonic (<http://www.skintonic-lb.com>) || React.js, Tailwind CSS
A portfolio that highlights the features of Skintonic Beauty Salon. It showcases a variety of services for comprehensive beauty and wellness care. Additionally, it consists of a contact form that allows users to contact skintonic directly via email.
- Portfolio for ammisr (<https://www.ammisr.com>) || React.js, Tailwind CSS
A sleek portfolio website designed for Albert Massad to showcase premium shelving systems and stairlifts. It features a clean, responsive layout that highlights the products with clarity and professionalism, along with a user-friendly contact form to facilitate direct communication and client inquiries.

Education

- Project Management Graduate Professional Diploma | American University of Beirut (AUB) | 2025.
- Master 1 in Applied Animal Sciences | Lebanese University, Faculty of Science | 2020-2022.
Graduation project on "Stem Cells Neurotherapy of Traumatic Brain Injury".
- Bachelor degree in Biology | Lebanese University, Faculty of Science | 2017-2020.

Skills

- Flexibility and adaptability in the workplace.
- Strong analytical thinking and attention to details.
- Strong knowledge of Git/GitHub version control and agile methodology.
- Excellent teamwork, communication, and organization skills.
- Computer literate in standard software applications (Excel, Adobe Photoshop...).
