Junior Backend Developer with over one year of dedicated experience in Java Spring Boot, RESTful API Development, and Database Management

SUMMARY

Aspiring Junior Backend Developer with foundational experience in Java Spring Boot, MySQL, and React, focusing on backend systems and database management. Proven ability to quickly learn new technologies, solve complex coding problems, and contribute to collaborative development projects. Excited to leverage technical skills to build efficient, scalable applications and support organizational growth.

PROFESSIONAL EXPERIENCE

Technical Assistant | Objectia Academy   **February 2025**

- Provided technical assistance to over twenty students, troubleshooting coding problems and resolving technical issues to enhance their learning experience and project success.
- Guided groups of students in setting up and using development environments and tools, including IntelliJ IDEA, Postman, and PostgreSQL with pgAdmin, ensuring smooth onboarding.
- Facilitated understanding of backend development principles and Java Spring Boot concepts through practical guidance, code reviews, and hands-on support during coding workshops.

Back End Developer | Opago (Remote)   **May 2023 – December 2023**

- Collaborated with a team of four front-end developers to integrate robust back-end logic with user interfaces, significantly enhancing web application functionality and overall user experience.
- Strategically designed and implemented streamlined project workflows, noticeably improving development efficiency and accelerating team productivity for timely project delivery.
- Developed, tested, and successfully deployed secure, scalable RESTful APIs using Java Spring Boot, enabling seamless data exchange and core functionalities for enterprise web applications.
- Proactively identified system bottlenecks and implemented targeted performance optimizations, significantly improving application responsiveness and overall system stability for end-users.

EDUCATION

Bachelor of Science in Computer Science | Antonine University   **May 2024**

TRAINING AND CERTIFICATES

Java Backend Development Training | Objectia Academy   **January 2025**

Completed intensive Java Backend Development training at Objectia Academy in January 2025, with a focus on Spring Boot, PostgreSQL, REST APIs, and core backend principles. Gained hands-on experience applying best practices for scalability, performance optimization, and clean architecture.

PROJECTS

Aallemni Application   **May 2025 – Present**

Currently developing an innovative online platform designed to empower trainers and learners by bridging expertise and education. The platform offers interactive courses and workshops, promoting engaging, hands-on learning experiences while equipping trainers with monetization tools, market insights, and performance analytics for professional growth and success.

Technologies Used: React, Next.js, Supabase, Typescript.

Marco Daniele Website (Link)   **January 2025 – April 2025**

Planned development and deployment of a modern, responsive e-commerce website for Marco Daniele. Project scope includes utilizing React and Tailwind CSS for frontend development and Firebase for backend services, ensuring fast performance and robust security to enhance online presence and drive customer engagement through an intuitive user interface.

Technologies Used: React, Firebase.

SKILLS

Front-End Development: HTML5, CSS3, Tailwind CSS, JavaScript, TypeScript, React, Next.js.
Back-End Development: Java (Spring Boot, Spring Security), C#, PHP (Laravel-based).
Database Management Systems: MySQL, PostgreSQL.
Frameworks & Libraries: Spring Boot, Hibernate, Java Persistence API, Next.js, Laravel.
Tools & Others: Git, Docker, IntelliJ IDEA, Postman, RESTful APIs, Microservices, Software Development Life Cycle, Agile.

Soft Skills: Problem Solving, Critical Thinking, Analytical Skills, Detail-Oriented, Quick Learning, Adaptability, Collaboration, Teamwork, Communication, Time Management, Organization, Self-Motivation, Proactive, Goal-Oriented, Work Ethic, Initiative, Creative Thinking.

LANGUAGES

Arabic (Native), **English** (Fluent), **French** (Proficient).
