Skills

1. Technical

- **Languages :** Java, Python, JavaScript, PHP
- **Web:** HTML, CSS, ASP.NET
- **Database:** SQL
- **Hardware:** Arduino

2. Soft Skills:

- Communication
- Teamwork
- Creativity

About me:

Computer Science graduate from **Lebanese University** Faculty of Science with expertise in Python, Java, and SQL, complemented by **strong interpersonal** and **problem-solving skills**. Proven ability to collaborate in **technical teams** (robotics projects) and **client-facing roles** (event hosting, tutoring). Seeking to contribute my technical knowledge and communication skills to deliver impactful solutions in a dynamic tech environment.

Work Experience:

Private Tutor (2019 – Present):

- Teach programming fundamentals (PHP, Java) and computer science concepts to students, adapting explanations to different learning styles.
- Improved students' grades by an average of 30% through personalized lesson plans and problem-solving exercises.

Hostess, La Favola (2019 – Present)

- Manage guest relations and coordinate events for 100+ attendees, demonstrating strong communication and multitasking skills.
- Resolve customer service issues promptly, showcasing problem-solving abilities in high-pressure environments.

Dancer & Event Hostess, Zafet Aarous L Bekaa / Plano Event Dagher Group (2016 – 2019)

- Collaborated in team performances requiring precise coordination and creative improvisation.
- Engaged diverse audiences, enhancing public speaking and adaptability.

Face Painter & Children's Caretaker, Fun Land Zahle (2016)

- Designed age-appropriate activities, requiring creativity and patience.

Hobbies & Interests

Coding personal projects.

Team sports (Basketball).

STEM Volunteer Work.

Education:

Bachelor of Science in Computer Science

Lebanese University, Faculty of Science (Zahle, Ksara) | 2021 – 2025

- **Relevant coursework:** Algorithms, Data Structures, Database Systems, Web Development.

Secondary Education:

Secondary Official School Zahle | 2015 – 2021

- Terminal Certificate in Life Sciences .

Academic Project:

- Improved **deep neural network accuracy for animal identification using pseudo-labeling techniques** to overcome limited training data (2024).
- **Flower Shop E-Commerce Website** | PHP, MySQL, HTML/CSS (2025).
- **Android Task Manager App** | Kotlin, XML, Jetpack Components (2025).
- **Task Manager Application** | Software Engineering Project (2025) using UML Diagrams.
- **Automated Smart Trolley** | Arduino and Final Year Project, Embedded Systems(2025)
 - Designed to follow users via ultrasonic/IR sensors and calculate item totals using RFID/barcode scanning.

Certifications:

- **NERD17 Tech Competition** | Education & Technology Center | 2017
- **Robotics FLL Competition** | FIRST Foundation | 2019
- **Financial Literacy Certification** | Bank Audi | 2019
- **Girls Got IT (Engineering & Tech)** | MEPI | 2018
