

Ali Sleiman

Beirut Lebanon • (+961) 78991778 • sleimana181@gmail.com • <https://alisleimanportfolio.vercel.app/>

Recent **Computer Engineering** graduate (GPA: 3.85), with practical experience in full-stack web development using React.js, TypeScript, and .NET. Currently enhancing skills in Python and data analysis to develop intelligent applications. Seeking a junior software engineering role that allows me to apply my software engineering experience while expanding into AI/ML domains.

Experience

AUG 2024 - OCT 2024

Software Engineer Intern – Acksession | Remote

- Enhanced API performance, reducing API response times by over 50% through optimization techniques and efficient database queries.
- Developed a bookstore API with secure JWT authentication, utilising C#/.NET and Entity Framework Core.
- Used Swagger and shared Postman collections for API testing and documentation.
- Collaborated in an Agile team, mentored by senior developers
- Enhanced UI responsiveness using Ant Design and adopted TypeScript for type-safe development.

AUG 2024 - OCT 2024

Full Stack Web Developer Intern – VioletPro | Hybrid

- Managed a MySQL database with 35+ tables in a University Management System, optimising queries and data loading.
- Built dynamic e-commerce and admin panel features using PHP and JavaScript, including chart dashboards, making data visualisation intuitive for administrators.
- Improved website performance by 60% by implementing pagination and applying SEO best practices.
- Ensured 100% responsiveness across devices using Bootstrap, delivering consistent UX on mobile, tablet, and desktop.

Technical Skills

- Programming Languages: C#(Advanced), Java (Advanced), JavaScript, TypeScript, C, C++, PHP.
- Frameworks & Libraries: .NET 7/8, ASP.NET Core, React.js 18, Bootstrap 5, Ant Design, Tailwind CSS
- Databases: MySQL
- Tools & Systems: Git, GitHub, CI/CD, Visual Studio, Swagger, Postman
- Concepts: RESTful API development, OOP, version control, async programming, responsive design

Education

OCTOBER 2022 – JUNE 2025

Bachelor of Science in Computer Engineering | Lebanese International University

- 3.85 GPA • Graduated with Distinction • Senior Project: Personalised & Automated University Advising System for coursework.

Projects

- MyAcademicGuide – Senior Project: Smart & personalized Academic Advising Platform
 - Led the frontend development using **React.js**, **TypeScript**, and **Ant Design**, three portals: Student, Advisor, and IT.
 - Collaborated with a project partner on backend integration; utilised Git for version control and Postman for API testing.
 - Outcome: **Achieved #1 ranking in grading and won first place at the university engineering exhibition at LIU.**
- University Management System (Internship at VioletPro)
 - Developed an enterprise web application using PHP and JavaScript, enhancing user interaction and responsiveness.
 - Outcome: A portal for students, advisors, secretaries, professors, Campus Admin, and the CEO of all campuses.
- Bookstore API built with .NET Core Version 8 (Internship at Acksession)
- BeastFit Wear – eCommerce Website with Admin Panel (.NET API, React.js, and TypeScript)
- Portfolio with Admin Panel (.NET API, React.js, and TypeScript)
