EDUCATION

American University of Beirut (AUB)

August 2016 – June 2020

Bachelor of Engineering (BE) in Civil Engineering

WORK EXPERIENCE

Civil Site Engineer at C.A.T. Group, Saudi Arabia, Saudi Aramco Oil & Gas Projects

July 2023 – Present

- Planning daily site activities in coordination with various stakeholders. This process includes deciding the daily project activities, allocating resources and equipment to the right locations, analyzing potential risks, and obtaining necessary work permits.
- Managing site activities and removing any obstacles or impediments that may affect work progress.
- Ensuring Saudi Aramco safety and quality requirements are being followed.
- Preparing method statements to describe the process of executing a certain activity, equipment needed, constraints, and tolerance limits.
- Preparing daily & weekly progress reports and conducting variance analysis.

Civil Engineer at Socotec, Lebanon & Ethiopia

July 2022 – June 2023

- Performed technical control site inspections within missions related to building solidity, waterproofing, seismic disposition, and fire safety in Lebanon and Ethiopia.
- Carried out structural and fire safety design review of residential and commercial buildings.
- Prepared proposals and bids for projects.

Project Engineer at Samir Khairallah & Partners, St. Georges Hospital, Lebanon

July 2021 – July 2022

- Conducted daily inspections on site activities (Structural & Architectural) and ensured quality and safety requirements.
- Reviewed and corrected structural shop drawings, material submittals, and method statements
- Extracted and calculated quantities of executed works.
- Tracked and reviewed daily progress reports.

Intern Civil Engineer at Consolidated Contractors Company (CCC), United Arab Emirates

Summer 2019

- Oversaw a site team for repair works.
- Handled the inspection of steel reinforcing bars.
- Briefed the Engineering Consultant with solutions for non-conformance issues.
