Professional Experience

Freelancer, *Software Development* 08/2024 – present
- freelance full-stack developer, I build modern ecommerce websites and web apps using the MERN stack
- and I develop custom desktop POS systems for local businesses. My work helps shops in my hometown digitize their sales, manage inventory, and grow their online presence.

Education

CIS College, *LT in Information Technology* 10/2022 – 07/2025
Tripoli, Lebanon

Projects

CloudWear, *Full MERN Stack E-commerce* 03/2025 – 05/2025
CloudWear is a full-featured e-commerce web application built using the MERN stack (MongoDB, Express.js, React.js, Node.js) for a fashion retail store called Forever. The platform allows customers to browse clothing collections, place orders, and track their deliveries, while store admins can fully manage products, inventory, and orders through a secure admin panel.
Used JWT Auth and Bycript for authentication and ImageKit.io 🔗 for image upload, optimization, and CDN delivery.
Please check it here: https://cloudwear.onrender.com/ 🔗

Moment Maker, *UML Design for a Wedding Planning Web App* 01/2025 – 02/2025
Moment Maker is a web application concept designed to simplify the wedding planning process by connecting customers with verified service providers such as venues, photographers, makeup artists, florists, and more.
I designed the UML architecture for this platform to define a scalable, modular, and secure system, focusing on both user experience and admin control.

Languages

Arabic: Native ∣ **English:** Fluent ∣ **French:** Fluent

Skills

Proficient in serval programming languages:
Java, Python, JavaScript, TypeScript, PHP, XML.

Frameworks:
Node.JS, Express.JS , React.JS, React Native, TailwindCSS, NoSQL(MongoDB), SQL(MySQL, Oracle).
