 Saida-Lebanon

## PROFILE

I am a qualified developer seeking a challenging programming position to contribute technical skills and innovative thinking to a dynamic development team. Having strong creative and analytical skills, and a team player with an eye for detail.

## ABOUT ME

I am a dedicated developer with a strong passion for web and full stack development. With hands-on experience in both front-end and back-end technologies, I have developed a solid foundation in building dynamic and responsive web applications. I enjoy solving complex problems, learning new technologies, and collaborating with others to bring innovative projects to life. My goal is to continue expanding my skill set and contribute to impactful development projects while furthering my knowledge in the field'
