Results-driven Software Engineer with expertise in both web and mobile development. Technology enthusiast known for innovative problem-solving skills and adaptability. Proven ability to excel in fast-paced environments and deliver high-quality solutions. Remote-ready professional ready to take on new challenges.

Professional Experience

Backend team lead *Develoopmint | June 2025 - Present*

- Spearheaded backend development for a high-performance video conferencing application, optimizing real-time communication and scalability.
- Engineered robust database architectures using Supabase, PostgreSQL, and MongoDB, ensuring seamless data management and high availability.
- Led the development of a real-time chat system, enhancing user engagement with low-latency messaging.
- Mentored and guided a cross-functional engineering team, fostering efficient workflows, code quality, and reliable deployments.

Mobile App Developer *Personal project:darlink | July 2024 - July 2025*

- led the development of an application used to buy sell and rent all properties
- Solely responsible for end-to-end database design and deployment.
- Integrated push notifications and location-based services to enhance app functionality.
- Pioneered seamless AR integration into our mobile platform.
- Bridged frontend/backend teams by documenting APIs and mentoring junior devs on integration.

Education

Bachelor of Science in Computer Science *Beirut arab university , lebanon ,beirut | May 2022 - June 2025*

Certification in React web Development *Objectia S.A.R.L International | June 2025 - July 2025*

Certification Mobile App Development (Flutter/Dart) *Apex center | May 2024 - September 2024*

Key Skills

- Proficient in backend ;Node.js, MongoDB, PostgreSQL, Firebase, Supabase, REST APIs, WebSockets -
- Experience with mobile app development using languages like Swift, Java, or Flutter -
- Knowledge of popular web frameworks and libraries like React, Angular, or Vue.js -
- Familiarity with mobile app SDKs, APIs, and platform-specific guidelines -
- Strong problem-solving and analytical skills with an eye for detail -

Interests

- **Audio Engineering & Music Production** – Mixing, mastering, and exploring sonic landscapes.
- **Interactive Media** – Video game design, storytelling, and immersive gameplay mechanics.
- **Tech Community Building** – Actively participating in industry meetups and conferences to exchange cutting-edge ideas, expand professional networks, and collaborate on emerging technologies.
- **Tech Restoration** – Reviving and modernizing vintage hardware/software with a creative touch.
