Professional Summary

Software developer with strong full-stack skills in React.js, Node.js, PHP, and MySQL. Experienced in building scalable, user-centric web applications with real-time features and API integrations. Eager to contribute technical expertise and problem-solving skills in a collaborative team environment.

Technical Skills

Frontend:	HTML5, CSS3, Tailwind CSS, JavaScript, React.js
Backend:	PHP, Node.js, Express.js
Databases:	MySQL, MongoDB, SQLite
Tools:	Git, GitHub, VS Code
Other:	API Integration, MVC, Socket.io, Agile/Scrum

Projects

Employee Management System (EMS)

Developed a full-stack Employee Management System using React.js and SQLite. Implemented secure login, full CRUD operations, and a responsive UI for managing employee records.

Chat App (MERN Stack)

Built a real-time messaging app with authentication, image upload, and 30+ themes (DaisyUI). Implemented online/offline tracking and responsive design.

I-STREAM – Real-time Chat & Video Call Platform

Created a MERN stack platform using Stream Chat API with messaging, video calls, friend system, and responsive TailwindCSS UI.

Image Processing Management System – Technical Assessment (2025)

Built backend with Node.js, Express, and MongoDB for file uploads, background image resizing (BullMQ + Sharp), email notifications (Nodemailer), and custom pixel-level filters.

Education

Bachelor of Science in Computer Science, Lebanese University, Beirut (2021–2024)

Relevant Coursework: Data Structures, Databases, Software Engineering, Web Development

Languages

Arabic: Native | English: Fluent
