---

### Objective

Innovative and results-driven Software Developer with hands-on experience in IT support and full-stack development, specializing in .NET Core, React, and MS SQL database integration. Currently pursuing a Master's degree at the American University of Beirut (AUB), aiming to leverage my technical expertise and educational background to contribute to the implementation and optimization of cutting-edge technology systems, with a focus on cybersecurity and system security enhancements.

---

### Education

#### Master's in Cybersecurity

American University of Beirut | Expected Completion: 2025

Relevant courses: fundamentals of Cybersecurity, Threats, Attacks and Vulnerabilities, and Network Security I

#### Bachelor of Engineering in Computer and Communication Engineering

Lebanese International University | 2017 – 2023

---

### Professional Experience

#### Creative Technology Solutions | Full-Stack Developer

Nov 2023 – Feb 2025

- Transitioned into a full-stack development role, utilizing .NET Core, React, and MS SQL to design and maintain robust applications.
- Implemented cloud-based solutions using Azure, enhancing scalability and performance of enterprise systems.
- Collaborated with cross-functional teams to optimize system integration and ensure seamless application deployment.
- Provided technical support and troubleshooting to ensure uninterrupted operations.

#### Course Website Project

- Developed a kickboxing booking and offers platform, showcasing expertise in user interface design and secure application development.
- Built the project using HTML, CSS, JavaScript, and PHP, ensuring a seamless user experience.
- Implemented data validation and security measures to maintain system reliability.

#### System Integration for Educational Institutions

- Designed and deployed integrated solutions leveraging .NET Core and MS SQL to enhance data management for learning platforms.
  - Optimized database queries and cloud integration to improve performance and scalability.
- 

### Technical and Soft Skills

- **Programming Languages:** .NET Core, React, Python, JavaScript, Java, C, SQL, PHP, HTML, CSS
  - **Databases:** MS SQL, MySQL
  - **Cloud Platforms:** Azure (deployment, integration, management)
  - **Tools and Frameworks:** Visual Studio, Git, Docker
  - **Soft Skills:** Strong leadership and team collaboration, Excellent communication and organizational abilities, Public speaking and attention to details.
  - **Languages:** Fluent in English, Arabic, French
-
