## Summary

My entrepreneurial spirit and the regulatory power of law, inspired me to combine a solid legal education from the Lebanese University with a specialized business degree in financial engineering from Notre Dame University(NDU). This distinctive combination of skills has created a synergy that has enhanced my research, analytical, and problem-solving capabilities. It empowers me to tackle complex legal and financial issues with accuracy and strategic insight. I am eager to leverage my diverse skillset to drive the growth and success of your organization.

## Education

### Notre Dame University (NDU)

From 2021 to 2024, I pursued a Bachelor's Degree in Business Administration - BBA, specializing in financial engineering. During this time, I achieved a 3.64 GPA and was honored for academic excellence by being inducted into Beta Gamma Sigma, the International Business Honor Society. The coursework I completed includes:

- Applied statistics
- Introduction to econometrics
- Financial modeling
- Quantitative assets management
- Advanced derivatives models
- Financial risk management
- Business policy and strategic management

### Lebanese university

Between 2014 and 2018, I pursued a Master's degree in Law. The coursework I completed includes:

- Money and banking law
- Lebanese finance and Taxation Law
- Commercial law: commercial acts, traders, negotiable instruments
- Corporate law and bankruptcy
- Air Law and Maritime Law

### Student of the financial markets

Since 2023, I have gained hands-on experience in trading stocks (using Thinkorswim), cryptocurrencies (on Binance), and forex, indices, and commodities (with MT5). I am skilled in using TradingView and Refinitiv for in-depth analysis.
