PROFESSIONAL SUMMARY

Full Stack Software Engineer with over 1 year of professional experience building scalable web applications using Next.js and ASP.NET Framework. Proven ability to design and develop secure, responsive systems with a strong focus on user experience and backend efficiency. Passionate about clean code, modern UI/UX, and robust API design. Experienced in both team environments and independent freelance projects.

EMPLOYMENT HISTORY

Software Engineer - Silicon Computer Systems - Beirut, Lebanon

Oct 2024 - Present

- Developed a full-featured online accounting system using Next.js and ASP.NET Framework, managing both frontend and backend components.
- Designed and implemented RESTful APIs and integrated SQL Server for data storage, reporting, and analytics.
- Built secure, responsive user interfaces with Next.js, emphasizing usability and dynamic data visualization.
- Implemented authentication and role-based access control to ensure system security and data integrity.

Freelance Developer

2025

- Built a comprehensive clinic management platform using the MERN stack and Tailwind CSS.
- Designed role-based dashboards for patients, doctors, and admins with features like appointment booking, reminders, and payment tracking.
- Developed secure APIs for managing appointments, user accounts, and medical records.
- Developed multiple Shopify stores, handling store setup, customization, theme integration, and e-commerce functionality to meet client requirements.

EDUCATION

Bachelor of Science in Computer Science, Lebanese International University

Beirut

Feb 2020 - Jun 2023

- Graduated with honor
- GPA: 3.72 / 4

CERTIFICATIONS

- Ethical Hacking Foundation - Semicolon Academy (2025)
- Capacity Building & Leadership - Youth in Action (2024)
