PROFESSIONAL SUMMARY

Cybersecurity student (B.S. Math & CS, LAU, graduating 2026) with 400+ internship hours in vulnerability assessment, penetration testing, and threat analysis. Certified in Microsoft Cybersecurity, SC-900, and NVIDIA Deep Learning. Hands-on with DVWA report, CTFs, and security tools (BurpSuite, Wireshark, Nmap, SQLMap).

EDUCATION

Lebanese American University (LAU) — B.S. in Mathematics & Computer Science (In Progress)

Sept 2022 – May 2026 | GPA: 3.3/4.0 | Honors

Relevant Coursework: Cybersecurity, Operating Systems, Computer Networks, Data Structures & Algorithms, Software Engineering, Database Systems, Artificial Intelligence, Machine Learning.

INTERNSHIP EXPERIENCE

Real Pixel Agency — Cybersecurity Intern | May 2024 – Apr 2025

- Performed vulnerability assessments, penetration testing, and risk analysis mapped to OWASP Top 10.
- Applied Burp Suite, Wireshark, SQLMap, Gobuster, Nmap for reconnaissance and packet analysis.
- Contributed to internal documentation of best practices and remediation guides.
- Completed 400+ hours of hands-on cybersecurity practice as a university student.

Integrated Digital Systems (IDS) — Full Stack Development Intern | Jun 2022 – Sept 2022

- Designed and built a Meeting Room System with ASP.NET Core MVC, C#, SQL Server.
- Developed secure REST APIs with authentication; improved reliability and error handling.
- Created responsive UIs with HTML, CSS, JavaScript, Bootstrap, jQuery.

PROJECTS

- **DVWA Security Lab:** Practiced XSS, SQL Injection, CSRF; produced technical notes and mitigations.
- **Reconnaissance & Enumeration Lab:** Applied Nmap, Gobuster, WhatWeb to simulate lawful security testing.
- **Capture the Flag (CTF):** Participated in web and network security challenges; documented solutions.

CERTIFICATIONS

- Microsoft Cybersecurity Fundamentals (Microsoft)
- Microsoft Security, Compliance & Identity Fundamentals (SC-900) (Microsoft)
- NVIDIA Fundamentals of Deep Learning (NVIDIA)
- Cybersecurity Internship (Real Pixel)
- Self-study: CompTIA Security+ domains, OWASP Top 10, SOC triage fundamentals

SKILLS

Security Tools & Frameworks: Burp Suite, Wireshark, Nmap, SQLMap, Gobuster, Linux, SIEM basics, Incident Response playbooks.

Programming & Databases: Python, Java, C#, PHP, JavaScript, SQL, MySQL, MongoDB.

Web Development: HTML, CSS, Bootstrap, jQuery, ASP.NET Core MVC.

Languages: Arabic (native), English (fluent), French (basic)
