Summary

Detail-oriented Computer Science student graduating in June 2025 with hands-on experience in Java, Python, and web development (PHP, MySQL), coupled with a strong foundation in cybersecurity principles. Completed a specialized Offensive Cybersecurity Bootcamp and applied security measures, including authentication and vulnerability mitigation, to a full-stack project. Eager to contribute to a team where software engineering and security knowledge are valued.

Education

Arab Open University, Tripoli, Lebanon

Bachelor's degree in computer science, Start

Date: 2021, Graduation Date: June, 2025

- **GPA:** 3.10
- **Core courses:** Web Technologies, Operating Systems, Data Management and Analysis
Software Engineering, Machine learning and artificial intelligence.

Open University in UK

Bachelor's degree in computer science

Technical Skills

- **Programming Languages:** Java (Advanced), Python (Advanced), C# (Intermediate).
- **Software principle:** Object-Oriented Programming (OOP), Unified Modeling Language (UML).
- **Web Development:** HTML, CSS, Php, MySQL/MongoDB.
- **Cybersecurity:** Encryption/Decryption, web Vulnerability Research, Burp Suite Proxy.

Certifications & Training

1. Capture The Flag (CTF) competition between Lebanon Universities

- *Semicolon Academy & Google Developer Groups in Lebanon*
- *Sponsored By toters*
- *May 2025*
- +1000 participants from all universities in all Lebanon.
- Hands-on training in cybersecurity with labs with real-world examples. And participating in the local CTF as team of 2 members in AOU-Hackteam.

2. Offensive Cybersecurity Bootcamp

- *Semicolon Academy & Google Developer Groups in Lebanon*
- *February 2024 – March 2024*
- Hands-on training in cybersecurity, including encryption/decryption, vulnerability research, and Burp Suite Proxy. Completed 11 labs with real-world examples and Conducted vulnerability assessments using Burp Suite.

3. WAYNorth Project – Work Readiness Training

- *Injaz Lebanon & Giz*
- *June 2023 – July 2023*
- Developed employability skills, including time management, ethics, communication, and problem-solving.

4. Aptis General test certification

- British Council exam
- Issued date: June 2025
- Grade: B2

Projects

Library Management System

- October 2024 – January 2025
- Graduation project, grade mark: B+
- A Website designed by using Html, CSS, PHP and database (MYSQL) using XAMPP tool.
- It has functionalities like add, remove, search, implemented security features including authentication and vulnerability mitigation for users and admin, dashboard catalog for books presents in the library and borrow book request.

Memberships

Member of the Youth Committee

Arab Open University (AOU)

- Contributed to youth activities and proposed ideas to support young people in Al-Danniyeh, North Lebanon.
- Participate in all events and workshops of the UDA.

Member of Tech Fusion Club (TFC)

Arab Open University (AOU)

- *Sharing information and ideas in the community group*
- *Working in all challenging tasks*
- *Participate in all events and workshops of the club*
- *Attending all webinars and practical sessions of the experts*
- *rom the club and the university and others real experts*

Languages

- **Arabic:** Native
- **English:** Professional
