ABOUT ME

I'm a Computer Engineering student passionate about cybersecurity and digital protection. I aspire to pursue a master's degree in Cybersecurity and gain hands-on experience in security analysis, risk management, and auditing. I'm eager to apply my technical knowledge, learn from real-world professionals, and contribute to secure and innovative solutions.

CERTIFICATION AND TRAINING

- IBM Cybersecurity Analyst Professional Certificate (In Progress)
- Cisco Python Essentials 1 (Completed)
- Cisco Introduction to Cybersecurity (Completed)
- DELFI B2 – Diplôme d'Études en Langue Française (French Language Certificate)
- SprintOS AI Summer Sprint Bootcamp (Completed)

PROJECTS

- FitMealAI – Intelligent Nutrition Assistant (Python)
 - Built a smart meal recommendation system using Python and AI concepts.
 - Implemented an ingredient-based matching algorithm and GUI for meal selection.
- Hospital Management System (C++)
 - Developed a C++ console program for managing patient data, staff information, and appointments.
 - Focused on structured logic, data validation, and modular programming.
- Dice Game (C++)
 - Designed a console-based dice game with real-time score tracking and winner selection.

EDUCATION

- B.Sc in Computer Engineering Expected graduation in 2029
- Al Maaref University
- GPA:3.67
- Relevant courses:
 - C++, OOP
 - Digital Logic Design
 - Computer Network
 - Circuit
 - Electricity and magnetism

SKILLS

- Problem Solving
- Time Management
- Attention to Details
- Report Writing
- Critical Thinking

LANGUAGES

- English (Fluent)
- French (Bilingual)
- Arabic (Native)

TOOLS

- Matlab
- VS Code
- IntelliJ
- PSpice
- Logisim
