Summary

Full-stack software engineer with a strong foundation in both web and mobile development. Experienced in building scalable applications using React, Laravel, MySQL, Flutter, and React Native. I thrive on crafting clean, maintainable code and delivering solutions that merge user needs with business goals. Always eager to learn, collaborate, and turn ideas into impactful digital experiences.

Technical Skills

- **Frontend:** JavaScript (ES6+), React, HTML5, CSS3
- **Backend:** Laravel, Express.js
- **Mobile Development:** Flutter, React Native
- **Databases:** MySQL, MongoDB
- **Tools And Services:** Git, GitHub, VS Code, Figma
- **Core Concepts:** Data Structures, Algorithms, Object-Oriented Programming (OOP)

Education

Lebanese University : Philosophy   2023 – Present

- Developed critical thinking and analytical reasoning skills, now applied in software problem-solving and product thinking.

Experience

Sofware Engineer | Yaso App   2024-2025

- Built scalable backend architecture with Node.js
- Designed RESTful APIs enabling seamless communication between mobile frontend and backend services
- Maintained structured Git processes to ensure codebase stability and efficient collaboration.

Projects

Time Capsule Platform   Frontend | Backend

- Built a personal/social platform where users create multimedia messages revealed at future dates
- Key features: GPS/IP tagging, countdown timers, privacy controls (Private, Public, Unlisted), ZIP export, and surprise mode
- Implemented real-time email notifications and dynamic public wall with filters by mood, country, and time range

Languages

Spoken Languages : Arabic(Native), English(Fluent), German(Beginner).

Certificates:

Lebanese University : Philosophy
- **Expected Completion:** Oct 2026

SE Factory : Foundations Of Computer Science (FCS)
- **Completed:** 2024
