WORK EXPERIENCE

WHITEBEARD, Achrafieh, Lebanon   July 2024 – Present

Full-Stack Web Developer

Developed websites from scratch, managing both frontend and backend, including public-facing layouts and custom content management systems. Provided ongoing support by handling client requests and project updates. Also contributed to quality assurance by testing features before delivery and worked on implementing SEO best practices.

NETWAYS, Dbayeh, Lebanon   February 2024 – June 2024

QA Engineer – Automation

As a QA Engineer, I created test plans, validated requirements, and designed test cases to ensure the functionality of web and software tools. I documented and reported bugs clearly, tracked issues using Azure DevOps, and conducted API testing with Postman.

CODELOOPS, Jdeideh, Lebanon   March 2022 – January 2024

Full-Stack Web Developer

Created websites (Frontend and Backend) with a custom CMS (Content Management System) for various projects, including:

- o Multi Vendor Ecommerce Websites
- o Booking Event Websites
- o Food Delivery Web Application
- o QR Code Menus for Restaurants
- o Informative Websites

THE WEB ADDICTS, Sin El Fil, Lebanon   September 2021 – February 2022

Internship | Full-Stack Web Developer

As a Full-Stack Web Developer trainee, I created websites from scratch full responsive with a CMS, contributing to real-world projects and gaining valuable experience in the process.

AL-KAFAAT UNIVERSITY, Beirut, Lebanon   2018-2021

- E-COMMERCE Website (Full Responsive)
  - o Front-End: Create customer login/registration, products filtering and sorting, products collections (Featured, Best selling, New arrivals), product details, shopping cart, checkout (cash on delivery).
  - o Back-End: Create Content Management System to let the admin have full access on his website by modifying any data like categories, products, store, customers.

- Inventory Management System (Desktop Application)

  Order, Barcode Scan, Table of scanned products full details (name of product, quantity, price, final price), Discount Selection, Total Price, Received, Returned, Print Invoice, Customers and products management.
