SUMMARY

Motivated and adaptable individual with previous experience in the food and beverage industry, including customer service and operational roles. Recently graduated with a Bachelor's degree in Computer Science, with a strong foundation in programming, web development, and software systems. Successfully completed a senior project involving the development of a dynamic commencement website for LIU University. Currently seeking opportunities to apply and grow my skills in the tech industry, with a keen interest in continuing my journey in software development and IT solutions.

EXPERIENCE

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE
LEBANESE INTERNATIONAL UNIVERSITY, BEIRUT-LEBANON
HONOR GRADUATE WITH GPA 3.28 (2021-2025).

Senior Project: Commencement Website for LIU University
Developed a dynamic and responsive commencement website for LIU University using PHP, Bootstrap, and JavaScript. The platform provides students with all essential information related to the graduation ceremony, including:

- *Event location*
- *Program schedule*
- *Seating plans*
- *Gate access details*
- *Other relevant logistics*

Key features include:

- *Live stream integration for hosting the ceremony online when available*
- *An admin dashboard with full control over website content, allowing real-time updates and dynamic management of all ceremony details*

The project focused on creating a user-friendly interface for students while offering a powerful backend system for administrators to manage the entire event effectively.
