

HAMZAH ASSAF

AI Data Trainer | Aspiring Full-Stack Developer

Address: Beirut, Lebanon | Email Address: hamzahassaf08@gmail.com

Mobile Number: +961 3741213 | LinkedIn Profile: www.linkedin.com/in/hamzah-assaf

Summary:

Computer Science graduate with multiple certifications and over 6 years of experience in technical roles, including technical support management, broadcast operations, and video direction. Currently transitioning into frontend development, with hands-on experience building a modern Angular (v19) project. Known for strong problem-solving skills, attention to detail, and a passion for building responsive, user-focused web applications. Eager to apply my growing frontend skills and technical foundation through a software development internship, while continuing to develop as a full-stack developer.

Currently working as an **AI Data Trainer at Invisible Technologies**.

Education:

- Lebanese International University 2021-2024 Beirut, Lebanon
Bachelor's Degree in Computer Science (graduation project pending)
- Lebanese University 2015 - 2018 Beirut, Lebanon
Bachelor's Degree in Pure Mathematics (interrupted)

Technical Skills:

- Development: Angular (v19), HTML, CSS, JavaScript, TypeScriptNode.js, RESTful APIs
- Version Control: Git, GitHub
- Cloud & DevOps (Foundational): AWS, Docker, Jenkins, Terraform, Ansible, Kubernetes, CI/CD basics

Projects:

- Angular Contacts CRUD (Standalone Components)

Status: In progress

A modern Angular v19 CRUD app for managing contacts, built with standalone components using the latest best practices.

GitHub: <https://github.com/Hamza2497/angular-contacts-crud-standalone.git>

Certificates:

- AWS Certified Cloud Practitioner – December 2024
- DevOps Engineer – September 2024
- Docker Certified Associate – Aug 2024
