Technical Skills

Programming Languages // JavaScript (Intermediate), PHP (Intermediate), SQL (Intermediate), HTML (Intermediate), CSS (Intermediate), Python (Beginner), Java (Beginner)

Databases // MySQL (Intermediate), MongoDB (Intermediate)

Frameworks & Libraries // Laravel 12.x (Intermediate), React (Intermediate), Flutter (Beginner), Node.js (Intermediate), Tailwind CSS (Beginner), ASP.NET (Beginner)

Tools & Cloud Services // Git & GitHub (Intermediate), Docker (Beginner), Postman (Intermediate), Figma (Intermediate)

Software Development & Testing // CI/CD (Beginner), Pull Requests (Intermediate), Testing (Beginner), Clean Code Practices (Intermediate)

AI Skills // Open AI (Intermediate), Prompt Engineering (Beginner)

Spoken Languages // Arabic (Native), English (Advanced)

Projects

HR System (Back-end Lead)
React and Laravel Project
March 2025 - April 2025

- Worked in a group of five collaborating to design and develop an HR management system
- Implemented the front-end using React.js, focusing on creating responsive interfaces improved HR workflow efficiency by 25%
- Built RESTful APIs and managed backend services with Laravel, ensuring secure authentication and role-based access control
- Utilized Git and Github for version control and collaborative development through feature branches and pull requests

CareerForgeAI
React, Laravel, Nodejs Project
April 2025 - May 2025

- Developed an AI-Powered Interview Simulator providing instant feedback on answer and body language
- Engineered a resume-tailoring AI that analyzes job descriptions and user input to generate ATS-optimized resumes, increasing keyword alignment by 85% and reducing manual editing time by 50%
- Built a clean backend structure using services, requests and traits. And a clean frontend structure using services, custom hooks and redux
- Deployed the application using Docker for containerization and GitHub Actions to automate CI/CD pipelines

Experience

Mrad Utility Services
Full Stack Development Intern
Sept 2024 - Dec 2024 (for 2 months)
Beirut, Lebanon

- Developed interactive web applications using React.js and Node.js
- Designed and implemented 10+ RESTful APIs using Express.js and MongoDB for backend services
- Styled dynamic user interfaces with Tailwind CSS

Education

Lebanese University
B.S. in Computer Science
Graduated June 2024

SE Factory
Full-Stack Software Engineer Bootcamp
Feb 2025 - May 2025

- Intensive 3 months training in front-end and back-end technologies including React.js, Laravel, Node.js, MySQL
- Developing hands-on projects, focusing on building scalable web applications
- Emphasis on agile methodologies, teamwork, and industry best practices
