Career Objective

Ambitious and dedicated computer science student at the Lebanese International University (graduating Spring 2025), Full Stack Developer (specialized in Backend with Node.js & MongoDB) with 1 year of professional experience. Skilled in building scalable backend APIs, managing databases, and delivering full-stack applications. Also experienced in mobile development with React Native and game development using Godot. Eager to contribute backend expertise to innovative projects.

Education

Lebanese International University (LIU): Bachelor in Computer Science graduation spring 2025

Technical Skills

- Programming Languages: JavaScript (Node.js,Next.js), Python, Java, C#, PHP, HTML, CSS
- Backend & Databases: Node.js, Express.js, MongoDB, MySQL
- Frontend: React.js, HTML5, CSS3,Tailwindcss.
- Mobile Development: React Native
- Game Development: Godot Engine (GDScript, C#)

Projects

- **Notes Application (MERN):** Developed an online notes app with full CRUD functionality (create, update, delete, list).
- **Authentication System(MERN):** Built login/signup APIs with secure user authentication and integrated a simple home page.
- **Mini E-commerce Platform (MERN):** Implemented product management, user system, and order handling.
- **Online Gallery:** Built a gallery web app for storing and sharing images and videos online.
- **Car Sale Website:** Platform for listing and managing car sale ads (HTML/CSS/JS, PHP).
- **Omega Fortress (Game):** Tower-defense game with custom AI pathfinding, developed in Godot.
- **Mobile Projects:** Created cross-platform apps using React Native.

Professional Experience

- **Backend Developer (1 year):** Designed, developed, and deployed backend APIs (Node.js,Nextjs) and MongoDB queries for multiple projects. Collaborated on e-commerce and authentication systems.

Languages

- Arabic: Native
- English: Fluent
- French : Good
