Professional Summary

Full Stack Developer specializing in MERN stack and Next.js with strong problem-solving and cybersecurity skills. Experienced in building scalable, secure, and high-performance web and mobile applications. Adept at both front-end and back-end development, with hands-on experience in real-world projects and agile methodologies.

Skills

• Languages: JavaScript (ES6+), TypeScript, Java, PHP, HTML, CSS

• Frameworks & Libraries: React.js, React Native, Redux Toolkit, Next.js, Node.js, Express.js

• Databases: PostgreSQL, MongoDB, MySQL

• Tools & Others: Git/GitHub, Figma, Agile (ClickUp)

Projects

- **E-commerce Mobile App (React Native, Express.js, MongoDB, Redux Toolkit) – 2025**

Transformed an existing MERN e-commerce web application into a mobile app. Implemented product browsing, detailed views, cart functionality, secure authentication, order tracking, and WhatsApp integration.

- **Doctor Appointment Booking (Next.js, Express.js, PostgreSQL, Sequelize ORM) – 2025**

Developed a healthcare booking system with secure JWT authentication, doctor profile browsing, online booking, and an admin dashboard for managing doctors and appointments.

- **ESA-HRIS (Next.js, TypeScript) – 2024**

Enhanced the Human Resource Information System (HRIS) for ESA Business School by adding features to the Admin Tab, improving UI/UX for administrators.

- **BetelMoune (MERN, Socket.IO, Chatbot) – 2024**

Developed an online platform to support Lebanese women in Mouneh production and crafts. Contributed to product pages, cart, and chat groups for online sales and communication.

- **Chat App (MERN, Redux Toolkit) – 2023**

Built a real-time chat web application with secure authentication, responsive UI, and seamless real-time communication.
