

Ihab Hafda

Back End Developer

Address: Lebanon, Bhannin **Phone:** 03595328 **Email:** ihabhafda@gmail.com **LinkedIn:** [linkedin.com/in/ihab-hafda](https://www.linkedin.com/in/ihab-hafda)

A self-motivated web developer with good knowledge in JavaScript, Backend, Passionate about web development, and excited to learn more. Date of Birth : 13, Jun, 1996

Professional Experience

2023 - 2024

Junior Backend Developer

One year Experience In Enkrypt Company Reference Number: +61424774993

- **Language** : Node.js / Express / GraphQL- sequelize - ORM
- **Database** : PostgreSQL / Git - GitHub / Trello / Figma
- Working with a team of five people: frontend, cybersecurity, and design specialists.

Main achievement

I worked on a project called (Educhain,) a school project, I worked on features like create, edit, delete, archive, unarchive, and edit by a friend. I was responsible for developing each section individually. Additionally, I also made it the user account and password encryption using libraries such as JWT and bcrypt for security, and integrated Google authentication for user login.
