Undergraduate Computer and Communication Engineer – Software Developer

Passionate Software Developer with solid experience in HTML, CSS, C#, JavaScript, and backend development using Java and Python. Skilled in building efficient, scalable, and user-friendly software solutions with a strong foundation in networking and system design. Proven ability to manage projects, solve complex problems, and collaborate effectively through real-world IT assistant experience. Seeking an internship opportunity to apply my knowledge and further leverage my technical and analytical skills in a professional environment.

WORK EXPERIENCE

Software Engineer Excellence Program

Led by Sami ShamsEddine • Senior Software Engineer

- Covered a comprehensive curriculum including:
 - Software Engineering Essentials
 - Advanced Class Design Patterns
 - Database Management
 - Backend Architecture and API Development
 - Continuous Integration & Deployment (CI/CD) Mastery
- Gained valuable insights into modern software engineering practices, scalable backend systems, and efficient team collaboration workflows.
- Developed a deeper understanding of clean code principles, version control, and collaborative development workflows.

Flutter Internship - CaC

Jul 2025-Aug 2025

- Developed a solid foundation and hands-on experience in mobile app development.
- Worked on cross-platform application design, state management, and API integration using Flutter and Dart.
- Gained strong practical knowledge in UI/UX implementation, responsive layouts, and app deployment to Android and iOS.

IT Assistant

Jul 2021- 2024

Shouf Biosphere Reserve • Maaser Al Shouf

- Designed and maintained LAN infrastructure, increasing internet speed and boosting system performance by 70%, using SXT microtik.
- Developed automated billing reports for 200+ employees using Excel, reducing project costs by 20%.
- Led digital tool training programs, enhancing operational efficiency by 30%.
- Supported data collection and mobile reporting tool deployment across 5 regions.
