SUMMARY

Motivated and detail-oriented Computer Scientist passionate about building impactful digital experiences. With a foundation in mobile app development using Flutter and Dart, I have expanded my expertise into full-stack web development. I am currently strengthening my skills in Node.js, JavaScript, React.js, and MongoDB through a combination of online courses and practical projects, including both web-based and small offline applications. My background in Java, HTML, CSS, and Dart, supported by a Bachelor's degree in Computer Science and relevant certifications, provides a strong technical base. Additionally, currently developing advanced proficiency in API integration and AJAX to create dynamic, responsive, and user-centered web applications. I am eager to contribute to innovative and forward-thinking teams where I can apply my skills and continue to grow professionally.

WORK EXPERIENCE

Zaydan Rent a Car-Lebanon December 2023-Present
