PROFILE

As an aspiring Data Science graduate with a dynamic background in varied roles, my diverse experience across fields has equipped me with adaptable skills and fresh perspectives.

PROFESSIONAL EXPERIENCE

Managed Services Specialist - External Test Engineer
Techvitis
01/2024 – present

- Supported Murex as an external Test Engineer, handling both automated and manual testing processes.
- Leveraged Jenkins, Bitbucket, and custom scripts to automate and optimize testing workflows.
- Conducted regression testing and refactored test packages to improve efficiency and reduce run times.
- Managed tasks and tracked issues in Jira, ensuring alignment with project goals.

Quality Assurance Engineer
Blu AI
09/2023 – 11/2023

- Conducted comprehensive manual quality assurance procedures for a website and application-based reward system, ensuring compliance with quality standards.
- Applied Ad-hoc methodology to execute rigorous testing.
- Utilized JIRA as a primary tool to manage testing processes, track identified issues, and facilitate seamless communication with both the QA team and developers.
- Executed sanity tests to validate the basic functionality, stability, and usability of the website and application.

Data Cleansing Specialist
Burger Index
09/2023 – 11/2023

- Independently conducted data cleaning tasks on Excel sheets, overseeing the identification and rectification of inconsistencies, removal of duplicates, and handling of missing data in a dataset of approximately 6k rows.
- Utilized filtering, conditional formatting, and other Excel functions/tools autonomously to cleanse and prepare datasets for analysis or presentation.

Support Agent
2Bfluent
02/2022 – 11/2023

- Assisted learners and resolved complaints via emails and tickets.
- Utilized the admin panel to prioritize tasks efficiently.
- Streamlined processes for quicker user assistance.

EDUCATION

Bachelor's in Data Science
Lebanese University
2020 – 2023

SKILLS

- SQL
- Linux, Shell Scripting
- DevOps
- Python
- Git
- Web Development
- Data Transformation (XML, JSON)
- R, Shiny
- Machine Learning, AI
- Cloud (AWS)
- Big Data
- PowerBI

LANGUAGES

- Arabic
- English
- French
