Profile

undergraduate Mechanical Engineering student at [Beirut Arab University] with hands-on experience in CAD design. Combines strong analytical skills with practical problem-solving abilities demonstrated through coursework projects. Proficient in Microsoft Office, Solidworks, Ansys, Autocad, Revit, MATLAB, and some programming languages (python, C++, Java). Seeking to leverage technical knowledge and collaborative mindset to contribute to innovative engineering solutions while continuing to develop professional expertise.

Education

2022 – 2027	BS in Mechanical Engineering
Tripoli, Lebanon	<i>Beirut Arab University</i>

Skills

Technical Skills:

Revit, Autocad, Solidworks, Ansys, Microsoft office, Python, c++, Java, Matlab.

Soft skills:

Adaptability, Analytical thinking

Languages

- Arabic
- English

Certificates

- Revit ventilation system
- Revit electrical systems
- Solidworks CSWA

Projects

Ventilation system

Designed a full ventilation system for a 20 floors taking into consideration the different needs for each room and floor with a BOQ.

Electrical system

Designed a full electrical system including power and lighting for real hotel.
