ABOUT ME

I am a 3rd year Computer Science student looking for an internship opportunity to expand upon my practical skills, gain insight and experience into the working field. I value teamwork, integrity, and I am detail-oriented when it comes to doing the tasks I am assigned. I am also good at collaborating and cooperating with other people.

EDUCATION

La Cime, Choueifat — *Lebanese Baccalaureate*

SEPTEMBER 2010 - MAY 2022

University of Balamand, Souk El Gharb — *Bachelor in Computer Science*

SEPTEMBER 2022 - DECEMBER 2024

University of Balamand, Souk El Gharb — *Bachelor in Computer Science*

DECEMBER 2024 - PRESENT

PROJECTS

Pharmacy Project — *Object-Oriented Programming*

Solo development of a pharmacy system in Java. I worked with multiple classes on this project and got a 90% on it. The project has good error handling, multiple choices for the user, and performs its required functions. Some classes have inheritance/parent-child relationships, too.

College Registration Project — *Data Structures*

Group work development of a student registration system in C++. I worked with 3 other students on this project. We created multiple classes and linked objects with linked list objects. The project also inputs data from files and outputs it into files. This project received 87%.

SKILLS

- Data Structures (Beginner & Advanced)

- Object-Oriented Programming

- Knowledge in Java, C++, and some familiarity in Python

- Software Analysis & Design

- Databases

- Operating Systems

- Principles of Computer Networking & Communication

LANGUAGES

Writing and oral fluency in both English and Arabic.

File Sorting System — Advanced *Data Structures*

Solo development of a file sorting system using tree data structures according to specific criteria.

Unity Game Development — Senior Capstone Project

Solo development of a 2.5D game demo as my senior project using Unity. I plan on finishing it after graduation.
