Professional Summary

Full stack developer with 2.5+ years of experience delivering responsive, high-performance fintech and startup applications. Skilled in modern frontend and backend frameworks, database design, and API integration. Experienced in owning projects end-to-end, from concept to production-ready UIs and robust backend services.

Technical Skills

Frontend: React, Next.js, React Native, Tailwind, MUI, Shadcn/UI, Framer Motion

Backend & APIs: Node.js, NestJS, Java/Spring Boot, PHP/Laravel, Python/Django, C#/ASP.NET, GraphQL, REST, WebSockets, JWT, Stripe

Databases & Caching: MongoDB, PostgreSQL, SQL Server, Redis

Tools & Testing: Git, Vercel, Render, Postman, Swagger, Jira, Figma, Jest, Cypress, Playwright, Expo

Experience

Frontend Lead (MVP Projects)

Apprenticeship   **2023 – Present**

- **Owned frontend development** for early-stage startup MVPs under founder mentorship.
- **Built responsive UIs** with React, Vite, Tailwind, and Context API.
- Delivered **production-ready** frontends emphasizing **component reuse** and **optimized state management**.

MERN Stack Intern

ITSC Group   **2023 – 2024**

- **Developed a ride-hailing app** using React Native, Node.js, MongoDB, and Google Maps API.
- **Implemented real-time ride tracking** and driver dispatch via Socket.io.
- Focused on backend integration and real-time communication features.

Frontend Developer

Quantum FinTech Leap   **2022 – 2023**

- Created modular dashboards for **fintech** analytics using React and Chart.js.
- **Refactored legacy codebase**, reducing technical debt by 35%.
- Developed **dynamic filtering** and custom chart visualizations.

Computer Support Specialist

Ayoub Computers   **2021 – 2022**

- Maintained 50+ systems and resolved 100+ support tickets.
- Assisted in hardware repairs and network troubleshooting.

Projects

EchoWave — Python, Django, React, Tailwind, Vite
All-in-one web-based music player for streaming, organizing, and managing your favorite tracks with a smooth, responsive interface and modern UI. [GitHub]

TaskHive — PHP, Laravel, PostgreSQL, JavaScript
Task management platform with role-based access, real-time notifications, and collaborative workflows for teams. [GitHub]

Linkly — Java, Spring Boot, PostgreSQL, REST
URL shortening and analytics service providing secure links, click tracking, and user-friendly dashboards. [GitHub]

Ryde — React Native, Node.js, MongoDB, Socket.io
Full-stack mobile app with real-time driver tracking, map-based interface, and seamless ride booking. [GitHub]

FinShark — React, C#, ASP.NET, Tailwind
Financial analytics dashboard combining interactive charts, dynamic data filtering, and user-friendly reporting. [GitHub]

Education

Bachelor of Applied Science in Computer Science

Modern University for Business and Science   Beirut, Lebanon — **2021**

Relevant Coursework: Algorithms, Operating Systems, System Design
Certifications & Extras

Certifications: **CCNA (2022)**, **ICDL (2017)**
Languages: **Arabic (Native)**, **English (Professional)**
Volunteer Work: **Coordinated 5+ tech and community events.**
Soft Skills: **Agile, Adaptable, Critical Thinker**
