🪪 Objective

Motivated Computer Science graduate with hands-on experience in **web and software development**, specializing in **frontend technologies (Angular, JavaScript, HTML, CSS)** and **backend development (PHP, C#, Java, SQL, Python)**. Passionate about building **scalable, responsive, and efficient applications**, integrating clean UI design with solid backend logic. Dedicated to continuous learning and growth in **full-stack development, cloud computing, and automation**.

💼 Experience

KfW & European Union Graduate Support Program – FALA Association   04/2025 – 06/2025
Web Development Trainer   Tripoli, Lebanon
Duration: 40 Days
- Delivered hands-on training in **HTML, CSS, and JavaScript** to
  participants aged **12 to 40** with varying technical backgrounds.
- Focused on **responsive web design**, **practical projects**, and **real-world
  applications** to build foundational coding skills.
- Maintained high engagement and received positive feedback for clear
  explanations and interactive teaching methods.

🎓 Education

Bachelor's Degree in Computer Science   10/2022 – 06/2025
Lebanese International University (LIU)   Tripoli, Lebanon
GPA: 3.30

🌐 Languages

Arabic – Native ● **English** – Fluent

📂 Projects

Angular E-Commerce Store
Angular | TypeScript | Bootstrap | JSON Server
- Developed a responsive **Angular e-commerce website** with **category filtering**, **add-to-cart**, and
  product search features.
- Implemented **state management**, **form validation**, and **dynamic routing**.
- Integrated backend simulation with **JSON Server** for local API testing.

Clinic Management System
HTML, CSS, Bootstrap, JS, PHP
A responsive website allowing clinics to manage doctor listings, appointments, and patients. Includes both frontend and backend logic.

E-Commerce Phone Store Website
HTML, CSS, Bootstrap, JS, PHP
Developed a responsive phone store website with user-friendly UI, dynamic product listings, and basic cart functionality.

Doctor's Appointments Application
C# | SQL Server | .NET Framework
A desktop application designed to streamline doctor appointments.
- Patients can search doctors by specialty/region, book or cancel appointments.
- Doctors manage availability and view appointments by date.
- Admins can add, update, or delete doctors and manage system data.

Book Search App
Flutter | Dart
A mobile app that allows users to search for available books by author or subject using a clean, responsive UI. Built with Flutter and Dart.

Python Text Translation App
Python | Google Translate API | NLP
- Built a GUI-based text translation tool supporting multiple languages.
- Utilized **Google Translate API** and **text preprocessing** from NLP coursework.

Instagram Frontend Clone
HTML, CSS
Recreated Instagram's interface with responsive design principles and pixel-perfect layout.

University Sports Event Management System
Database-driven system to manage university sports events. Involved in ER design, table normalization, and complex SQL queries.

Bank Management System
Java, PostgreSQL
Backend application managing customer accounts with CRUD operations using Java, PostgreSQL, and JPA.

☆ Certifications & Training

AWS re/Start Bootcamp
Cloud Computing & DevOps Fundamentals (80 Days)

Angular
Self-Learning Course

09/2025 – 09/2025
Tripoli,Lebanon

Full-Stack Web Development
At youbee.ai ⎋
Duration: 4 months

Robotics
(36 hours)

Data Annotation
(24 hours)

Java Backend
*Java, PostgreSQL Backend application managing customer accounts with
CRUD operations using Java, PostgreSQL, and JPA.*

🧠 Skills

Programming & Development
HTML, CSS,JavaScript,Angular.js, Dart,
Flutter, C#, Java, PHP, Python, Node.js,
Bash

Databases
SQL Server, MySQL, PostgreSQL

Core Competencies
Responsive Design, OOP, Problem-Solving, API
Integration, Debugging, Team Collaboration,
Self-Learning, Teamwork

Frameworks & Tools
.NET Framework, Laravel, Bootstrap, Angular
(basic), Puppeteer, Electron, Git, VS Code

Automation & Testing
Web scraping, browser automation, task
scheduling

🎻 Interests

- Full-Stack Web & Mobile
  Development
- Competitive Programming &
  Problem-Solving
- Football & Sports
