Objective

Motivated and determined Computer Science student at Notre Dame University – Louaize with a growing passion for front-end web development. Living with physical disabilities has shaped me into a highly resilient and goal-oriented individual. I've overcome academic and personal challenges to develop skills in HTML, CSS, and UI design, and I'm eager to apply them in a real-world setting. I am seeking a web development internship where I can contribute meaningfully, continue to grow, and demonstrate that limitations do not define potential.

Education

Notre Dame University – Louaize, BS of science   **currently studying**

Major: computer science

Dar En-Nour, Lebanese baccalaureate   **graduated in 2022**

Major: general science

Skills & abilities
