Ihab Mheich
CS Student

A Computer Science student with a passion for blending technology and creativity to create digital experiences.

Seeking to apply my skills in dev. and UI/UX design to innovative projects in the tech & design industries.

Experience

Creative Designer   maxiphy
Internship   July 2024 - September 2024

Provided me a practical experience in user-centered design for tech products and softwares, including user research and prototyping. I gained understanding of strategic digital branding, encompassing visual identity and messaging. Exposure to industry tools and collaborative teamwork were key takeaways for delivering impactful technical solutions.

Content & Documentation   Gdsc Le cnam
Apprenticeship   Sep 2023 - June 2024

Gained practical experience in event organization, encompassing planning and execution. I also developed skills in social media design to create engaging content for club outreach. Additionally, leading workshops honed my teaching and presentation abilities, allowing me to effectively communicate technical concepts to fellow students.

Media & Design Committee   MSP Tech Club
Apprenticeship   Sep 2024 - june 2025

Developed skills in creating engaging social media content for club outreach.

Education

Informatique Generale   Le cnam Liban
