PERSONAL PROJECTS

Final Year Project - PT For Me
- **Developed and designed a mobile lifestyle fitness application that allowed booking and video calling between clients using flutter for the front-end and asp.net core back-end**
- **Created a web application with JavaScript that serves both as a landing page for our users and an admin dashboard for monitoring**

UX /UI
- **Drafted a user interface for a gym website to optimize the user experience with Adobe XD.**
- **Designed the mobile and website interface for a personal trainer application for my end of year project with figma.**

Mini Games
- **Developed a Python based minigame where the main objective was to avoid falling debris.**
- **Created a small web application with node.js where users can play the hangman and chat with each other.**

Business Plan - Shelp.co
- **Assessed and defined a business plan for an online jewelry store mainly the organizational and financial structure.**
