Objective

A passionate and dedicated **Computer Science student** with hands-on experience in **full-stack web development** and **desktop application** design. Excels in creating innovative and user-friendly solutions using modern technologies. Known for effective collaboration, attention to detail, and eagerness to learn and adapt.

Experience

- **xDevs, remotely**
 - **Full-Stack Developer (Full-Time)** | Jul 2025 - Present
 - Implemented a **Broker Introducing Commission Level System** to manage complex commission structures.
 - Enhanced the company's **CRM application**, improving scalability and user experience.
 - Designed and implemented a **dynamic KYC process** with Twilio phone verifications, selfie image checks, and secure document handling.
 - Developed and optimized **IB (Introducing Broker) module settings**, enabling flexible configurations for broker partnerships.
- **Brainkets, Tyre, Lebanon**
Feb 2025 – Present
 - **Part-Time Full-Stack Developer** | Jul 2025 – Present
 - Preparing robust backend APIs in Yii2 with advanced filtering for both a mobile application and an admin panel.
 - Extending and maintaining an ERP-style grid component, handling multiple views and functionalities as a full-stack contributor.
 - **Full-Stack Developer (Full-Time)** | Mar 2025 – Jun 2025
 - Built a complete Trading CRM system using the MERN stack, integrating payment providers (Match2Pay, Coinsbuy, VisionExpress, WhishMoney, VisionExpress by WhishMoney).
 - Enabled seamless fund transfers to MT5 accounts with support for both admin and automated approvals.
 - Implemented secure user authentication with Google Authenticator and CAPTCHA, plus real-time updates via WebSockets.
 - Migrated a full web application from React to Next.js for improved SEO and performance with server-side rendering.
 - **Back-End Developer Intern** | Feb 2025
 - Led a team of three interns in developing a File Manager System, overseeing research, task division, and project execution.
 - Designed and implemented backend features using Yii2, including authentication, file uploads, and role-based access control.
- **Two of Us, Byblos, Lebanon**
Full-Stack Web Developer – Intern | July 2024 – September 2024
 - Developed scalable web applications using the MERN stack and contributed to projects like e-commerce platforms, quiz games, password generator app, and backend of flight management system, focusing on functionality and user experience.
 - Led the development of a Car Q&A Forum and marketplace platform as a graduation project, implementing secure transactions, interactive features, and a modern design.

Education

Bachelor's Degree in Computer Science | October 2022 – July 2025
Islamic University of Lebanon, Faculty of Arts and Sciences, Lebanon
GPA: **90.23/100** | Stand: **Excellent**

Skills

- **Technical Skills:** HTML5, CSS3, bootstrap, MUI, JavaScript, React.js, Next.js, Angular, Typescript, Node.js, Express.js, C++, C#, Android (Java), Yii2, Python, Java, PHP, SQL (SSMS, MySQL, PostgreSQL), NoSQL (MongoDB, Firebase), JavaFX, Git/GitHub, RESTful APIs, Render, MongoDB Atlas, Data Structures and algorithms and OOP principles.
- **Soft Skills:** Problem-Solving, Team Collaboration, Effective Communication, Time Management, Adaptability and Quick Learning, Critical Thinking Attention to Detail, and Team Leader.

Projects

Wallet Management System (PHP), **Electronic Devices Online Store** (JavaScript), **Car Q&A Forum with Marketplace** (MERN), **Smart Company Network** (Cisco), **Dairy Management System** (JavaFX), **HR Management System** (C#), **Baladeyate Mobile App** (Android Java).
