

# Hadi Nouredine

Software Engineer

Address: Beirut, Lebanon | Nationality: Lebanese | Phone: +96171422892  
Email: [hadi.nouredine.9@gmail.com](mailto:hadi.nouredine.9@gmail.com) | [LinkedIn](#) | [GitHub](#) | [Personal Website](#)

## WORK EXPERIENCE

### Darbuka

November 2023 – Present

Software Engineer

- Developed enterprise-level backend services using Node.js (Express) and Serverless framework.
- Architected and managed AWS infrastructure (Lambda, S3, CloudFormation, Route 53), ensuring scalability, cost-efficiency, and security.
- Implemented Google Sign-In authentication with AWS Cognito for secure OAuth-based onboarding.
- Built a dedicated development environment replicating production with CloudFormation & Route 53, streamlining testing and release workflows.
- Built CI/CD pipelines with AWS CodePipeline, accelerating deployments by 60%.
- Collaborated on solution architecture with focus on scalability, performance optimization, and security best practices
- Automated recruitment workflows using n8n, reducing manual screening time by 40%.

### TecSolutions

January 2023 – October 2023

Full Stack Developer

- Built responsive frontends with **React.js**, improving usability and engagement.
- Designed RESTful APIs with **Java (Spring Boot)** and Node.js, improving backend performance.
- Integrated AI solutions using PyTorch for a language translation application.
- Integrated third-party tools into existing systems using Python (Flask).

### LogicsField (CloudLinks)

August 2022 –December 2023

Software Engineer Internship

- Designed and implemented features using **Java (Spring Boot)** and **Angular** to deliver scalable full-stack solutions.
- Applied OOP principles in Java (Spring Boot) to build modular, reusable code.
- Assisted in API integration and database-driven application development.

## SKILLS

### Technical Skills

- **Backend Development:** Java (Spring Boot) | Node.js | Express.js | Python (Flask)
- **Frontend Development:** React.js | Angular | JavaScript | TypeScript | Bootstrap | WordPress
- **Database Management:** MySQL | MongoDB
- **Programming Languages:** C# | Java | TypeScript | JavaScript | C
- **APIs & Communication:** RESTful APIs | API Performance Optimization
- **DevOps & Deployment:** AWS (Lambda, Cognito, S3, Route 53, CloudFormation, CI/CD, CodePipeline) | Docker | Git
- **Version Control & Project management:** GIT, Jira
- **Architecture & Methodologies:** Serverless Architecture | System Design | DevOps Practices | OOP | Agile & Scrum

**Soft Skills:** Problem solving | Time management | Creativity | Teamwork | Active listening | Attention to detail | Critical thinking | Communication skills | Flexibility | Proficiency in English, both written and spoken

## EDUCATION

Bachelor of Science in Computer Science

June 2022

## LANGUAGES

• **Languages:** Arabic (Native), English (Fluent).

## CERTIFICATIONS

- AWS Solutions Architect Associate – 08/2025
- AWS Developer Associate – 09/2025
- AWS Certified Cloud Practitioner – 07/2024
- AWS Academy Graduate – Cloud Foundations 06-2023
- Zaka AI – Machine Learning Certificate 06-2025
