

## Summary

Motivated MIS graduate with hands-on experience as a Software Developer Intern. Skilled in Java, JavaScript, Node.js, and SQL, with practical experience in developing software solutions and managing database systems. Eager to contribute technical expertise and problem-solving skills to a collaborative development environment.

## Education

### **Bachelor's in Management Information Systems**

Lebanese University, Achrafieh, Beirut — October 2020 – May 2024

Relevant Coursework: Software Development, Database Management Systems, Systems Analysis, Web techs.

## Experience

### **Software Developer Intern** — SaferCore, ITG holding, Beirut, (September 2025 – October 2025)

- Developed an SDK in Java to track user events across devices, integrating AES encryption via Android NDK (C++) for secure data handling.
- Built a Spring Boot backend with MySQL to decrypt, process, and store event logs efficiently.
- Designed an admin panel using React and TypeScript to visualize logs and flag suspicious activity.
- Developed a Cisco Finesse customer lookup gadget for a banking client using XML, jQuery, and SOAP-based communication to retrieve and display customer data in real time.

## Projects

### **Final Year University Project** — Restaurant Table Reservation System

Developed a full-stack web application for online table reservations and ordering using Node.js, React, and PostgreSQL. Implemented authentication, time-slot filtering, and reservation management.

### **Freelance Website** — Frontend Design

Created a responsive landing page for a client using HTML, CSS, Bootstrap, and jQuery, focusing on clean UI/UX and mobile compatibility. (Live: <https://sahadrugstore.ae/>)

## Technologies and Languages

- Languages: Java, JavaScript, TypeScript, HTML, CSS, SQL.
- Frameworks : Node.js, React, Spring, Bootstrap.
- Technologies/Tools: MySQL, PostgreSQL, Git, Postman, VS Code, Android Studio, JSON, XML, REST APIs, npm, Command Line.
