Projects/Work Experience

Mersaco QA Intern (Sep 2025-Present):

- Performed manual testing across Salesforce CRM and Oracle E-Business Suite (EBS) modules, in accordance with GxP and compliance standards.
- Executed functional, regression, and integration test cases to validate end-to-end business processes across ERP and CRM systems.
- Logged, tracked, and retested defects while collaborating closely with development and support teams to ensure timely resolution.
- Verified system configurations, business logic, and data integrity between Salesforce, Oracle EBS, and finance/logistics modules.
- Assisted in UAT cycles, supporting business stakeholders and validating real-world workflows.
- Prepared and maintained test documentation, including test plans, test cases, and execution reports.
- Contributed to continuous improvement of QA processes aligned with pharmaceutical compliance and quality frameworks.

Full Stack & Mobile App Project: Recipe Management System

- Developed a recipe management platform using React, Node.js, and Android development, allowing users to browse, rate, and bookmark recipes.
- Implemented authentication for user sign-up and login to enable personalized interactions.
- Designed an admin panel for website owners to add, edit, and delete recipes dynamically.
- Developed and integrated backend APIs to handle user authentication, recipe management, and data synchronization across web and mobile platforms.
- Ensured seamless user experience by optimizing frontend-backend communication and database interactions.

Education
