- Laravel
- PHP
- Java
- PL/SQL
- Javascript
- MERN Stack

Language

English

French

Arabic

Michael-Jo Noun

Computer Science

Versatile developer with experience in building and maintaining applications, collaborating on diverse projects, and adapting to various tools and technologies.

Experience

2025 - Present

Array Tag, LLC

Software Developer

Working as a full-stack developer, building and maintaining web applications using Laravel and Next.js with TypeScript. Used PostgreSQL database for its reliability, advanced features, and efficient handling of complex queries, integrated multiple packages such as Spatie for roles and permissions, and configured custom authentication guards for managing different user types. Gained hands-on experience in implementing scalable backend structures, enhancing application functionality through package integration and framework customization.

2024 - 2025

Guru Hive

Full-Stack Internship

Contributed to the creation and launch of digital platforms for emerging brands by developing websites, backend systems, and integrations. Collaborated with designers and brand strategists to transform creative concepts into functional, user-focused digital products. Optimized digital processes to support brand growth and scalability.

2022 - Present

Ashtar, Jbeil

Bartender

Prepared and served a wide range of alcoholic and non-alcoholic beverages with speed, accuracy, and excellent presentation. Provided exceptional customer service in a fast-paced environment, ensuring guest satisfaction and repeat business. Assisted in inventory management and restocking, minimizing waste and ensuring efficient service.
