**Web Design Diploma**
Imaar training and development
**Front-end Development:** Built responsive UIs with HTML, CSS, JavaScript, and React
3 months

**Web development**
BOB courses and internship
**Core Skills:** Modern front-end stack (React, JavaScript, HTML/CSS) + backend basics
3 months

**Mobile development Internship**
Bob courses and internship
**Built cross-platform apps using Flutter, Dart, and Android Studio**
3 months

**Flutter flow**
Advanced Online course

**IT diploma**
Borderless NGO
**Gained foundational IT skills in networking and system administration**
3 months

## Projects

**Personal Health Assistant App**
Senior Project | Flutter, Firebase, Android Studio
- Developed a mobile app that connects patients with licensed nurses for appointments and consultations.
- Key features include secure login, real-time chat, AI health assistant, emergency location sharing, and appointment scheduling.
- Built using Flutter for cross-platform UI and Firebase for backend services (authentication, database, cloud functions).

**Tech Device E-Commerce Website**
Personal Project | React, JavaScript, HTML/CSS, SQL
- Built a responsive full-stack e-commerce website for selling mobile and tech devices.
- Used React for dynamic UI, SQL for database management, and implemented user authentication and product handling.

## Volunteering

**Database entry for a children educational bootcamp**
Alam Al-Forkan NGO
Managed and organized data for 100+ participants, improving camp logistics.
6 months

**Volunteered at children education bootcamp**
Alam Al-Forkan NGO
3 months
