Mohammad Zmeter

Full Stack Developer

Address: Beirut, Lebanon
Phone: +961 76 715447
Email: mohammadzmeter@gmail.com
|**Nationality:** Lebanese

Summary:

Motivated Junior Full Stack Developer with practical experience in building robust web applications using Spring Boot, Laravel, Angular, and React. Proficient in Python and knowledgeable in Agentic AI systems, with a growing interest in developing intelligent, autonomous applications. Eager to contribute to innovative projects by combining strong backend and frontend skills with emerging AI technologies, while continuously learning and evolving as a developer.

Experience

Full-Stack Developer (Internship) – 01/2025 to 05/2025
Siren, Beirut, Lebanon

- Collaborated with cross-functional teams to develop and maintain full-stack web applications using Spring Boot, and Angular on the frontend.
- Contributed to building user interfaces that enhanced user experience and accessibility.
- Assisted in the design and implementation of RESTful APIs, ensuring smooth integration between frontend and backend services.
- Participated in Agile ceremonies including daily stand-ups, sprint planning, and code reviews.
- Wrote clean, maintainable, and well-documented code, and helped troubleshoot bugs and performance issues.
- Gained hands-on experience in deploying applications and working with version control systems like Git.
- Explored and contributed to experimental features involving Agentic AI concepts and Python-based automation tools to enhance system capabilities

Full-Stack Developer – 07/2025 to Present
Datarays, Beirut, Lebanon

- Worked with cross-functional teams to build and maintain large-scale e-government and workflow automation systems, including *Titan Flow* and *Baladeyaty*, using **.NET 7 (C#)**, **Entity Framework Core**, **React (TypeScript)**, **Flutter**, and **Kendo UI**.
- Developed cross-platform **Flutter** mobile apps for both platforms, ensuring a consistent user experience across web and mobile versions.

- Helped design and implement **RESTful APIs** to connect backend, frontend, and mobile services.
- Took part in **Agile** processes such as daily stand-ups, sprint planning, and code reviews.
- Produced clean, well-structured, and fully documented code while troubleshooting performance and functionality issues.
- Worked on **database design**, query tuning, and migrations using **SQL Server** and **PostgreSQL**.
- Contributed to improving **UI/UX**, **bilingual (Arabic / English)** support, and overall accessibility.
- Supported the development of **automation and process-analytics** features to streamline operations and improve system efficiency.

Education

Bachelor's Degree in Computer Science – 2024 Lebanese International University, Lebanon

Skills & Expertise

- Leadership
- Team Management
- Communication
- Problem Solving
- IDEs/Tools: Microsoft Visual Studio/Code, IntelliJ IDEA.
- Database: MySQL, SQLite, PostgreSQL.
- Languages: HTML, CSS, JavaScript, Java, Python, C#, C++, PHP.
- Frameworks: Laravel, Spring boot, Angular, React, Autogen.
  Version Control: Git, GitHub Workflow

Languages

Arabic: Native | **English:** Fluent

Certificates

FreeCode Camp

- JavaScript Data structures and Algorithms

- Front-End Libraries

Meta – Coursera

- Foundations of Cybersecurity - *See Certificate*
- APIs - *See Certificate*
- Create a website using WordPress - *See Certificate*
- Django Web Framework- *See Certificate*
- Introduction to Databases for Back-end - *See Certificate*
- Version Control - *See Certificate*
- Programming in Python- *See Certificate*
- Introduction to Back-end development - *See Certificate*

Cisco

- Introduction to Cybersecurity
- CCNA2
- CCNA1
- Introduction to computers
