Software Engineer with a strong backend mindset, shifting into Java/Spring Boot after building real products using Laravel, SQL, and APIs. I focus on practical, clean solutions, solid databases, reliable APIs, and scalable logic. My background mixes development and IT, so I mainly think in terms of systems, reliability, and how everything connects end-to-end.

## Skill

---

- **Backend:** REST APIs, SQL, MySQL, DB Design, Auth (JWT/OAuth), Caching Concepts, Queues
- **Languages:** PHP, Java, Dart, JavaScript, C#
- **Frameworks:** Laravel, Flutter, NextJS, Spring(Foundational)
- **Tools:** Git, Firebase, Postman, Docker(Basic), Linux

## Professional Experience

---

### Full-Stack Developer - Brain Stores - Beirut - Apr 2024 - Present

- Designed and implemented REST API endpoints, DB queries, and request validation.
- Built eCommerce logic: checkout, cart, addresses, product filters.
- Worked on MySQL schema changes, optimizations, and backend data flows.
- Integrated authentication, token management, and Google Sign-In.
- Maintained Flutter app using clean architecture, Cubit, and GoRouter.

### IT Technician - Cosmaroma Inc - Toronto - May 2022 - Aug 2023

- Managed Azure AD, Office 365, servers, POS & Windows/Linux systems.

### IT Helpdesk - Vast - Beirut - Aug 2020 - Apr 2022

- Handled 100+ Windows/Linux systems, led OS upgrades, and improved ops for 200+ staff

## Projects

---

### 📱 Dar Al-Rafidain App (Flutter / Laravel / Firebase) [\[Playstore\]](#) . [\[Appstore\]](#)

- Backend logic for purchase validation, order APIs, DB modeling, and real-time sync.

### 🛒 Freshzone Mobile (Flutter / Laravel - In Progress)

- Developed filtering logic, checkout calculations, address API flows, and MySQL updates.

### 🔧 Servio (Flutter / Laravel - In Progress)

- Built provider directory APIs: multi-role auth, CRUD operations, provider DB, filters, media.

### 🚀 LaunchHub (Flutter / Laravel / Firebase / MySQL ) [\[GitHub Link\]](#)

- Mobile app connecting startups and job seekers, built with Flutter UI and Laravel backend

## Training and Certifications

---

### Flutter & Dart - Complete Guide (Udemy), 2024

### SE Factory Full-Stack Bootcamp, 2024 - Laravel, JS, Git, APIs; final project in Flutter

### CS Foundations - SE Factory, 2023 - Python, data structures, algorithms

## Education

---

### Bachelor in Computer Engineering - Lebanese International University, Lebanon

October 2018 - July 2021

Languages: English (Fluent), Arabic (Native)

---
