PROFESSIONAL EXPERIENCE

FITTDESIGN, *Full-Stack Developer,*   *2025 - present*
Beirut-ADLIYEH (on-site)

- Constructed Projects using React.js, node.js, PostgreSQL, Shopify, Metaobjects, typescript, Zustand, and ArkType.
- Built a flexible admin panel similar to Shopify's, allowing non-developers to create and customize sections.
- Implemented a project to let the user design a specific product (add image or text on the product and save the design in the database, using JIMP, Sharp, and Cloudflare.
- Enhancing the website′s backend using keylsey approach (merging the calls, and minimizing the payload)
- Transformed Websites from LIQUID language to react, and worked on migrating images from S3 bucket to R2

ETE-Services, *Full-Stack Developer*   *2024 –2025*
Batroun, Lebanon (Remote)

- Worked with clients to understand their requirements and provide technical solutions for their website.
- Engineered responsive web applications utilizing modern technologies such as Next.js, Redux, Redux-Toolkit, TypeScript, Node.js, Inversify, MVC, TypeORM, MySQL, MongoDB, Git, Bitbucket, and Jira, ensuring high-performance and scalability.
- Optimizing, and testing the code and database queries to improve data fetching performance and overall application efficiency
- Balanced working on solo projects in parallel with team collaboration under pressure.

ETE-Services, *Full-Stack Developer Intern (remote)*   *2024 – 2024*

- Learned and implemented Full-Stack Website/Application Using React Native, Next.js, Node.js, Redux, Inversify, TypeOrm, Stripe, Parallax, TypeScript. Developed and maintained interactive user interface, (Login, Signup, Jason Web Tokens (JWT), CRUD operations, Payment Gateway…)
- Worked on exporting HTML content to Excel, designing a table in one cell while supporting Arabic and English, links, and lists, using the Cheerio library.
- Implemented responsive design principles and structured backend code using entities, routes, controllers, and services.

PROJECTS

- **Senior Project: Online Store (Hein)** Full-Stack web platform inspired by Shein, built using **React.js, Node.js (Express.js), and MySQL**, **MVC**, **JWT-based authentication**. It also features a **voice search functionality**. Users can like, comment, add products to cart. Meanwhile, admins have full control over the data including the ability to add, edit, and delete products-users…

- **ATS Resume Checker**: "Developed a full-stack recruitment platform using Next.js, Node.js, MongoDB, and TypeScript. Recruiters upload job descriptions while candidates submit CVs (parsed via pdf-parse). OpenAI powers the generation of tailored interview questions and evaluates candidates' answers for a smart assessment. Hosted on MongoDB Cloud, deployed via Vercel, and version-controlled on GitHub."

EDUCATION

Lebanese International University (LIU)
Bachelor of Science in Computer Science. **GPA: 3.86 /4.0**

KEY SKILLS

Languages	Fluency in English and Arabic
Frontend Software Skills	React.js, Next.js, TypeScript, JavaScript, HTML, Material UI, Redux, Redux-Toolkit, CSS, Parallax
Backend Software Skills	Node.js, Inversify, TypeOrm, Sequelize, MVC, JWT, Middleware, MYSQL, MongoDB, NoSQL
Mobile Software Skills	React Native, Dart, flutter
Other Skills	Git, GitHub, BitBucket, Jira, OpenAi, Zustand, ArkType, CloudFlare, R2, AWS, S3, Sharp, Keysley
Soft Skills	Communication, Problem-Solving, Time Management, Critical Thinking, Attention to Detail
