Experienced Software Engineer and Full Stack Developer with 3 years of experience in Angular, Laravel, and .NET Core. Proven track record of driving improvements across the software development life cycle. Seeking a challenging role in a forward-thinking company to leverage my strong analytical, design, and problem-solving skills.

EXPERIENCE

FULL STACK DEVELOPER

3DS Datacom | Fanar, Lebanon

04/2022 - PRESENT

- Delivered a comprehensive front-end application by leveraging Angular's capabilities and TypeScript.
- Orchestrated team collaboration with JIRA and Git for efficient development processes.
- Partnered with back-end developers to create seamless RESTful API integrations using Laravel, including Eloquent ORM, query builder, migrations, and authentication.
- Created custom modules and components to extend the functionality of Angular +14's core features.
- Skilled in MySQL and relational database systems, ensuring robust data solutions.

DESKTOP DEVELOPER – FREELANCE

Computronix | Zahle,Lebanon

01/2022 - 04/2022

- Developed efficient C# desktop applications, leveraging Microsoft SQL for robust data management solutions.
- Conducted thorough debugging and testing to ensure high-quality software performance and reliability.
- Utilized Git for version control and collaboration, streamlining development workflows.
- Enhanced application features and optimized performance to meet evolving user needs.

JUNIOR FULL STACK DEVELOPER

Vanrise Solution | Beirut, Lebanon
09/2021 – 12/2021

- Developed front-end architecture using AngularJS, HTML, CSS, and JavaScript.
- Designed user interactions to enhance web page functionality.
- Built back-end applications with ASP.NET for optimal performance.
- Set up servers and databases using Microsoft SQL for robust functionality.
- Ensured responsiveness across all devices and platforms.
- Collaborated with graphic designers on web design elements.
- Managed projects from conception to completion, ensuring quality delivery.

`
