Education

Lacite Culturelle
2009-2022

Amjad High School
2022-2024

BS in Computer Science
American University of Beirut
2024-2027

Skills

- Java programming
- C/C++ programming
- Python programming
- Frontend and Backend Development
- Version Control (Git & GitHub)
- Linux Systems
- Systems and Network Programming

Languages

English

Arabic

About Me

Passionate and motivated developer with a strong foundation in Java, C, C++, and Python. Experienced in full stack web development and familiar with Linux environments. Recently attended an AI bootcamp, enhancing my skills in modern technologies and problem-solving.

Experience

December 2024
AI Bootcamp
Participant, gained hands-on experience in AI concepts and applications

August 2025
All Girls Code Workshop
Collaborated in tech-focused workshops including SDLC and DevOps, Docker, Mistral AI and Fast API

August 2025
Full Stack Web Development Course on Coursera
Built responsive websites using frontend and backend tools

August 2025 - December 2025
Lab Instructor at AUB
Assisted students with coding labs and technical exercises

October 2025 - November 2025
Connect 4 Game Project
Developed a console based Connect 4 game implementing multi-level AI decision logic, applying multithreading concepts and incorporating basic networking principles, optimized for Linux execution

November 2025
Research Assistant – Cloud Computing
Collaborating with my professor on a research project using CloudSim to model and analyze cloud network computing performance
