## EDUCATION

---

### Lebanese University

Tripoli

Bachelor's Degree in Applied Mathematics, option **Computer Science**

**Graduation:** September 2023

## PROFESSIONAL EXPERIENCE

---

### Full-Stack Developer

*Zakaa*

**Remote**

Feb 2025 - Dec 2025

- Built full-stack applications with Next.js (frontend, backend, API routes)
- Implemented auth, role-based access, and real-time features with Supabase
- Deployed on Vercel, ensuring performance, security, and responsive design

### Full Stack Developer

*LASeR | Tash'eel-3 Training*

**Tripoli**

May 2025 - Aug 2025

- Completed hands-on projects using React.js, React Native, and Node.js, with exposure to software quality assurance practices
- Gained practical experience in AI-assisted development and integrating AI tools into the software engineering workflow
- Developed front-end and back-end applications following industry standards and best practices

## PROJECTS

---

### MEDILINK - Health Record Management System

**Tash'eel-3**

Built a scalable medical data system used to manage shared patient records across healthcare institutions securely.

- Full-stack system with Next.js dashboard and React Native patient application
- Secure backend with role-based access and REST APIs

**Tech Stack:** Next.js, React Native, Node.js, Express.js, MongoDB (Mongoose), JWT, REST APIs

## SKILLS

---

- **Technical Skills:** Problem-Solving, Database Management, Software Development, Web Development, Object-Oriented Design, and Version Control.
- **Programming Languages:** C#, Java, PHP, Python, JavaScript, SQL.
- **Frameworks & Libraries:** Node.js, Express.js, React.js, Next.js, Vue.js, Laravel.
- **Web Development Tools:** HTML, CSS, Git, GitHub.

## CERTIFICATIONS

---

### IBM Full Stack Software Developer Professional Certificate

*IBM*

**Coursera.org**

Jan 2025

- Developed front-end applications with HTML, CSS, JavaScript, React, and Bootstrap.
- Built and deployed back-end applications using Node.js, Express, and NoSQL databases.
- Built hands-on projects using GitHub, showcasing full-stack cloud development skills

## LANGUAGES

---

- **English:** Working Proficiency – Capable of handling technical documentation and communication.
- **Arabic:** Native or Bilingual Proficiency
- **French:** Limited Working Proficiency
