About Me

Software Engineer with a solid foundation in computer science and a passion for solving complex problems through intuitive and efficient software solutions. Proficient in multiple programming languages and experienced in full stack development. Skilled in UI/UX design, with a keen eye for creating user-centered and accessible interfaces that enhance usability and engagement. Experienced in all stages of the software development lifecycle, including research, analysis, design, implementation, testing, and maintenance. Strong communicator and collaborative team player with a track record of turning business needs into innovative and practical solutions.

PROFESSIONAL EXPERIENCE

Frontend Web Developer | IdeatoLife | Jul 2024 - May 2025

- Resolved Frontend Issues: Provided comprehensive support by identifying, troubleshooting, and resolving frontend issues to ensure seamless user experiences and optimal application performance.
- Implemented New Features: Developed and integrated new features using modern frontend technologies, enhancing the functionality and usability of the application.
- Collaborated with QA Team: Worked closely with the Quality Assurance team to address feedback, perform debugging, and ensure high-quality code delivery.
- Partnered with UI/UX Team: Collaborated with the UI/UX designers to create and implement intuitive and responsive user interfaces, aligning with design specifications and user needs.

Frontend Web Developer | Anywr-Group | Aug 2023 - Oct 2023

- Focused on the frontend development of the 'Generator' project, which aimed to simplify the generation of JSON objects from provided DTOs.
- Collaborated on UI enhancements to create a more intuitive and user-friendly interface, contributing to a smoother user experience.

Full-Stack Web Developer | Codi Tech | Nov 2022 - Jun 2023

Business Portfolio Website:

- Contributed to the development of a comprehensive business portfolio website using the latest MERN stack technology (MongoDB, React, Node.js, Express).
- Played a key role in designing an appealing and user-friendly interface with React.js for a smooth user experience.
- Worked on the development of a secure backend using Node.js, Express, and MongoDB to ensure data integrity and system stability.
- Empowered website owners to display their professional work and highlight their skills.

Financial App:

- Designed the user interface using React.js to make it easy and user-friendly.
- Developed the backend of the application with Laravel and MySQL, ensuring a strong and flexible structure.
- Enabled businesses to easily keep track of their money flow, helping them handle spending and earnings effectively.

Online Education WordPress Website:

- Contributed to the development of an online education website using WordPress for a smooth learning experience.
- Created a simple booking system for users to easily reserve courses they like.
- Added a feature for users to book free trial sessions at times that suit them, making learning easier.

EDUCATION

Bachelor of Science - BS, Management Information Systems | Lebanese International University
